Campaign Spending: [List of Filers](#)

I'm running for Representative because our taxes are too high, government has too much control of our lives, and the State House is too busy playing political games to pay attention to us.

I was raised on the North Shore, my business and my family is here. I'm up nights worrying about my grandchildren's future. Our representative likes things the way they are; we need to fix things, today. My opponent walks the party line. I will represent everyone.

Elections should be contested. It brings new energy, ideas, and choices. We must return the State House, to the people or special interests will continue to run government -- and that's wrong. This isn't a Democrat problem or a Republican problem -- it's a State House problem.

People should keep more of what they earn. I'm for accountability and cutting waste. I'm for tough judges to protect our citizens. I'm for our district being recognized and rewarded for preserving Oahu's most important physical, social and economic asset, Hawaii's rural playground, the North Shore.

We can make a good education for our children and good jobs for them when they graduate. We can fix our inadequate roads, preserve our culture and natural resources and have government less wasteful and less involved in our lives. I believe in our district because I've listened to your concerns and felt the strength of its people. I know our greatest years lie ahead. Let's work together towards our common goals. Vote for me, Jeffrey Kalani Alameida.
